WHAT IS LAMP?

The Louisiana Asset Management Pool (LAMP) combines the efficiency of private enterprise with the protection of public policy. It enables local officials to pool and collectively invest funds to benefit from competitive yields, lower fees and the same level of investment management otherwise available only to large institutional investors.

The fund is operated by a non-profit corporation, LAMP, Inc., whose officers include the President, normally the Treasurer of the State of Louisiana, a Chief Executive Officer and a Chief Administrative Officer, charged with day-to-day operations of the program. LAMP is governed by a board of directors consisting of nine to fourteen members elected each year by the participants. Board members may serve a maximum of three one-year terms.

LAMP'S OBJECTIVES

LAMP's primary objectives are three:

PRESERVATION OF PRINCIPAL

The primary goal of the fund is to maintain a stable net asset value. LAMP has consistently earned a rating of AAAM from Standard & Poor's, the highest rating available to LAMP.

DAILY LIQUIDITY

LAMP offers same-day access to funds under management by phone, fax or on-line through the Participant Portal with no transaction fees.

COMPETITIVE YIELD

By pooling funds, LAMP's participants enjoy the level of professional money management otherwise available only to large institutional investors. This generally results in higher yields and lower management fees.

LAMP'S BENEFITS

As a cooperative venture, LAMP is able to provide participants with a range of benefits that would be difficult to achieve individually. Some of these include:

PROFESSIONAL MONEY MANAGEMENT

The LAMP pool is large enough to attract the attention and service of the very best investment managers in the country. As a result, LAMP generates an attractive yield and a low expense ratio to its participants.

ADMINISTRATIVE EFFICIENCY

LAMP operates extremely efficiently, keeping staff and overhead to a minimum while maintaining responsive services. LAMP participants have access to account information, performance and yields on-line through the Participant Portal or the toll-free LAMpline at 1-800-272-8162.

RESPONSIVE REPORTING

LAMP participants enjoy the benefits of immediate, fully secured access to their accounts. The Participant Portal provides up-to-date account information and a variety of reports to LAMP participants.

ARBITRAGE TRACKING

Arbitrage tracking is available to LAMP participants free of charge to track earnings on bonds issued and invest those earnings to obtain attractive returns.

VOTING RIGHTS AND GOVERNANCE

LAMP participants maintain direct oversight control of the pool by annually electing a board of directors from among the participants themselves. In addition to the right to elect directors, LAMP participants also have the right to amend the Articles of Incorporation of LAMP, Inc. and the right to liquidate or dissolve the corporation if they choose.

LAMP INVESTMENT APPROACH

LAMP's investment objectives and guidelines are detailed in a "Statement of Investment Guidelines" published by the Executive Committee of LAMP, Inc. These guidelines are intended to comply with legal restrictions on investing and can be modified only by the action of the Executive Committee. Participants must be notified of changes thirty days prior to the effective date of any modification of the guidelines.

LAMP INVESTMENT INSTRUMENTS

LAMP's investments are limited to securities and other obligations permissible under state law for municipalities, parishes and other political subdivisions. LAMP investments are also restricted to securities issued, guaranteed or otherwise backed by the U.S. Treasury, the U.S. Government or one of its agencies, enterprises or instrumentalities, as well as repurchase agreements collateralized by those securities, government-only money market funds rated AAAM by Standard & Poor's, and commercial paper of domestic United States corporations rated A-1 or A-1+ by Standard & Poor's.
